DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 11-12(part), 14(part), 15-17(part), 18(part), 19-20(part) drawn to Purines.

Group II, claim(s) 11-12(part), 14(part), 15-17(part), 18(part), 19-20(part), drawn to Imidazopyridines.

Group III, claim(s) 11-12(part), 13, 15-17(part), 18(part), 19-20(part), drawn to Benzimidazoles.

Group IV, claim(s) 11-12(part), 15-17(part), 19-20(part), drawn to Other.

The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The special technical feature of each group is the heterocyclic ring system at the right. Thus, Group I has the special technical feature of being purines, Group II has the special technical feature of being imidazopyridines, Group III has the special technical feature of being benzimidazoles, and Group IV embraces imidazopyridazines and other groups.

Burden is seen by the fact that the groups have separate search. For example, Group I would be in, among others, 544/277; Group II would be in, among others, 546/119; Group III would be in, among others, 548/305.1.

In the event that applicants elect any of Groups II-IV, tentative election of a single disclosed species is required.

Art Unit: 1624

A telephone call was made to Baerbel Brown on 5/1/09, 5/12/09 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark L. Berch whose telephone number is 571-272-0663. The examiner can normally be reached on M-F 7:15 - 3:45.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James O. Wilson can be reached on (571)272-0661. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
